

Turf Care Products is proud to announce Peninsula Lakes Golf Club as the newest Yamaha Golf Car fleet in the Niagara area.

Just this past fall, **Peninsula Lakes** took delivery of **85 NEW 2010 Yamaha gas golf cars**. **Tom Vanderlip, General Manager** and **Steve Christie, CPGA Professional** were both impressed by the quality of the Yamaha golf car. That was the deciding factor in their decision to switch to Yamaha from another supplier. They were also very happy to do business with a company such as **Turf Care Products Canada** that offers quality products and service along with professional sales staff. Thanks to **Mike Stewart from Turf Care London office** and **Jim Stone of Turf Care Financial** who assisted the purchase.

Peninsula Lakes Golf Club was designed by renowned architect **Rene Muylaert**, and was developed under a multi-stage plan. What was once the site of a large sand and gravel pit, soon became one of the premier golf courses in Niagara, now boasting **27 championship holes**.

Located in the heart of the Niagara Peninsula atop the escarpment, you will find impeccably groomed fairways and greens and sparkling lakes. **Peninsula Lakes** is a “must play” golf course when visiting the Niagara region, just 40 minutes from Mississauga. This championship course is a treat for golfers of all levels, with 27 holes consisting of 3 distinct 9's (Quarry, Hillside and Orchard). Recently all of the sand traps have been changed to Ohio white. This has added much character to the well-designed bunkers.

We are glad to have added **Peninsula Lakes Golf Club** to the long list of satisfied **Yamaha Golf Car** customers.

By: Kevin Ottman, **Golf Car Sales Manager, Turf Care Products**.
